

Manager Management Skills

Course Duration: 1 Day

Course Overview

With this course you will be able to provide the skills, guidance, and empowerment to your team of managers. They will then be better suited in leading and motivating their team and thus produce fantastic results. To be a successful manager means having a wide range of skills. Through this course you will be able to disperse your knowledge and experience throughout your management team.

This course will expand your knowledge and provide a way to teach and lead new and experienced managers. As every manager knows that learning never stops.

Workshop Objectives:

- Welcome and orientate new managers
- Learn ways to successfully coach and mentor
- Learn ways to measure and evaluate performance
- How to handle complications
- Communicate between employees and their managers
