| <input type="checkbox"/> | RTE4125A | Supervise nutrition and feeding in an intensive production system |
| <input type="checkbox"/> | RTE4127A | Class wool for special markets |
| <input type="checkbox"/> | RTE4129A | Apply advanced shearing techniques |
| <input type="checkbox"/> | RTE4202A | Design livestock handling/accommodation facilities |
| <input type="checkbox"/> | RTE4203A | Implement and monitor a property improvement plan |
| <input type="checkbox"/> | RTE4310A | Conduct equipment experting for machine shearing |
| <input type="checkbox"/> | RTE4401A | Control weeds, pests and/or diseases in crops |

Learner Name: _____

UNIT SELECTIONS

- RTE4511A Develop a soil use map for a property
- RTE4604A Determine seasonal irrigation scheduling tasks
- RTE4606A Supervise on-site irrigation installation and construction work
- RTE4607A Plan on-site irrigation system installation and construction work
- RTE4812A Co-ordinate customer service and networking activities
- RTE4903A Arrange transport for grain or livestock
- RTE4913A Analyse and interpret production data
- RTE4915A Implement and monitor quality assurance procedures
- RTE4917A Account for shearing shed supplies
- RTE5107A Identify and select animals for breeding
- RTE5916A Prepare and monitor budgets and financial reports
- RTF4014A Plan a growing-on program
- RTF4015A Plan a propagation program

QUALIFICATION RULES

Two units may be selected from other endorsed Training Packages on Access Group Training's scope. Units selected must be aligned to Certificate III or IV outcomes and must be relevant to work undertaken in the rural sector.

Note: For a Certificate IV in Agriculture at least ten of the units of competency presented for this qualification must relate to agricultural procedures, activities or contexts. In addition, at least ten of the units selected to make up this qualification must be aligned clearly to Certificate IV outcomes.
